WORK EXPERIENCE

AI WITH TY

June 2026 - Present

Founder and AI Consultant

- Help businesses evaluate AI tools, diagnose system problems, and develop practical workflows.
- Restored an AI vision inspection system for a manufacturer by correcting image capture, training the recognition model, and configuring automatic inspection.
- Scoped the remaining electrical controls work and handed it to a specialist.

CAMP FLASTACOWO

Summer 2026

Summer Camp Counselor

- Supervised 15 campers ages 8-14, including children with special needs.
- Led campers through archery, rock climbing, and sailing activities.

FAST FORWARD SPORTS GROUP Jacksonville, FL

May 2024 - July 2024

Owners of the Jacksonville Jumbo Shrimp, the Miami Marlins' AAA minor league baseball affiliate.

Accounting Intern - Assistant to the Controller

- Prepared monthly balance sheets, income statements, and cash flow statements for stadium operations and merchandise sales.
- Built Excel reconciliation and reporting workflows using VLOOKUP, INDEX/MATCH, and PivotTables.
- Supported the annual audit by preparing reconciliations, resolving discrepancies, and organizing documentation.

SELECTED PROJECTS

ARCADIA

Personal AI System

- Designed and built a personal AI system using coding agents and existing platforms, connecting persistent memory, research, scheduled tasks, and computer use.
- Configured integrations, tested workflows, and developed reusable processes for reviewing SEC filings, earnings calls, Federal Reserve minutes, and BLS reports.

LEADERSHIP AND SERVICE

AI IN BUSINESS CLUB, FLORIDA STATE UNIVERSITY

January 2025 - Present

Vice President

- Led four workshops on AI-assisted research, analysis, and workflow automation, with approximately 40 students attending each session.
- Teach source verification and responsible AI use through live demonstrations and guided exercises.

SKILLS

- Excel: PivotTables, VLOOKUP, INDEX/MATCH, reconciliation, and reporting workflows.
- Accounting: Financial statement preparation, audit support, and financial analysis.
- AI: Workflow design, AI-assisted development, source verification, Claude Code, and Codex.
